

## Zero Sales Column

The old column "Zero Report" has now been changed to "Zero Sales". This change is made to clarify that this box should only be checked when there were **NO** sales for the production period.

### Zero Sales:

- When checking the "Zero Sales" box, you cannot have any sales volume.
- For Oil: Market Value, Royalty Due, 8/8 Disposition and Your Volume Share must be zero
- The only volumes that are permitted are Beginning Inventory, 8/8 Production and Ending Inventory.
- For Gas: Market Value, Royalty Due, 8/8 Production and Your Volume Share must be zero.  
Error message will state "This property report is not a valid ZERO SALES REPORT"
- If you upload a Zero Sales report through CSV, you DO NOT have to check the "Zero Sales" box on the screen

UT1 and UT2 Header (1)														
	Company Number	Company Name	Status	Production Date	Product
