

Monthly Well Production Reporting Template

Template Name:	UL_MonthlyWellProductionReportingTemplate.xlsx
File Format:	MS Excel
Code:	WELL_PRODUCTION_MONTHLY
Version:	2
Publish Date:	11/01/2019

Description

The monthly well production reporting template is used to collect data for each operator's well on University Lands. This template is for use in Microsoft Excel and can use the .xlsx or .xls formats. The first 3 line are reserved for identifying the file when uploading to the Well Data Portal and cannot be changed.

TEMPLATE_CODE	VERSION					
WELL_PRODUCTION_MONTHLY	2					
API	UWI	PROD_DATE	GROSS_OIL	GROSS_GAS	GROSS_WATER	DAYS_ON

- Line 1 & 2 identify the template and version
- Line 3 is the data field column names

Data Definitions

Field Name	Data Type	Description
API	String	10 digit American Petroleum Institute well identifier. Record must contain this or the UWI to be processed.
UWI	String	14 digit Unique Well Identifier. The first 10 digits are the API number and the last 4 represent the completion sequence.
PROD_DATE	Date	Month associated with reported production record. Please use MM/01/YYYY format.
GROSS_OIL	Decimal	Numeric value representing gross oil production in barrels for the month.
GROSS_GAS	Decimal	Numeric value representing gross gas production in thousands of cubic feet for the month.
GROSS_WATER	Decimal	Numeric value representing gross water production in barrels for the month.
DAYS_ON	Integer	Integer value representing days of production a well contributed to a monthly allocated production value.
